Connections

Video & Audio Output Connections

- **HDMI cable connection**

Connect HDMI cable to HDMI terminal at the back of product. Connect the remaining cable terminal to HDMI terminal at the back of a digital TV. Make sure to carefully distinguish between input and output terminals.

- **Composite cable connection**

Connect yellow cable for video signal to the terminal located at the back of side of TV. Then, select external input of TV. Connect the remaining red and white terminal cables to the left/ right and audio output terminal at the back of the device. Then, connect red and white cables to the left/ right terminal of DTV input or component audio input located at the back of a digital TV.

Connection

- Component cable connection

Connect the green, blue and red terminal cables to the Xtremer SideWinder 2 and TV in accordance with the color scheme; connect white AV cable to L terminal, and red AV cable to R terminal. (Component cable is an optional item)

Connection

- **Optical cable connection**

You can enjoy high-quality 5.1CH sound when connected to an amplifier or a receiver with optical cable. Connect optical cable to Optical port on Xtreamer SideWinder 2 as shown above. Then, connect to an amplifier or a receiver. (Optical cable is optional)

- **Coaxial cable connection**

You can enjoy high-quality 5.1CH sound when connected to an amplifier or a receiver with coaxial output cable. Connect coaxial cable to coaxial port on Xtreamer SideWinder 2 as shown above. Then, connect to an amplifier or a receiver. (Coaxial cable is optional)

Connection

Connect to the Network

- **Wired and Wireless Network**

Connection

Connect to the USB Storage

Connect a cable to the USB port on the side.

External USB storage device

Please remember to connect the cable before powering the player on.

USB 3.0 Slave connection

Please note. When Xstreamer is connected to a PC via Slave USB connection it stops being a media player and becomes an external storage device.
