Tip
You will be able to use this method in order to allow (or block) the access by someone.
You can't access a share on your network
The main reason that you cannot access a network share is that a GUEST account is not enabled on your system.

In Windows 7 you might experience problems accessing your Network Shares if you have windows Live Essentials 2011 installed. In this case, try to access the folders via NET (MEDIA SOURCES)

How to display “Guest” account “on” for Windows

For Windows XP,
(1) Select [Start] – [Control Panel] - [User accounts]
(2) Change from [Guest accounts is off] to [Guest accounts is on]

For Windows Vista,
(2) Click [Guest]
(3) Change from [Guest accounts is off] to [Turn on]

Reboot PC and Xtreamer, then you will be able to connect Network.
